

QAbstractItemView

```
graph BT; QListView --> QAbstractItemView; QTableView --> QAbstractItemView; QTreeView --> QAbstractItemView;
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'QAbstractItemView'. Below it, to the right, are three boxes: 'QListView', 'QTableView', and 'QTreeView'. Green lines connect each of these three boxes to the 'QAbstractItemView' box. Each line starts from the left side of the child box and ends with an arrowhead pointing to the left side of the 'QAbstractItemView' box, indicating inheritance.

QListView
